ABOUT ME

Highly skilled and accomplished Mobile Application Team Lead with 8 years of extensive experience in Android and iOS development. Proficient in native Android, iOS, Flutter, and React Native platforms. Successfully delivered and maintained 37 apps throughout my career. Currently leading a team of 7 talented app developers at Nexkraft Limited. Proven expertise in project management, team coordination, and delivering exceptional mobile solutions. Committed to innovation and staying up-to-date with industry trends to drive continuous improvement.

CAREER SUMMARY

- 2022-PRESENT

NEXKRAFT LIMITED

Senior Android & iOS developer

I started working with them in 2022 as an Inhouse mobile application developer. From last three month I have responsibility to manage 7 developer team as a team lead. I have developed Native android, iOS and Cross platform application for them.

Responsibilities

1. Develop offshore software for clients using various technologies, including Native Android, Native iOS, Flutter, and React Native for cross-platform application development.
2. Successfully developed around 7 mobile applications from scratch over the past year and a half.
3. Maintain and enhance features for the "Breac iFleet" software (Native Android) - A rider and user management app for Breac. <https://play.google.com/store/apps/details?id=com.nexkraft.ifleetUser> (Native android)
4. Develop new features and maintain the "MyC2i" app (React Native) - An application developed on the React Native platform. <https://play.google.com/store/apps/details?id=com.myc2i> <https://iphone.apkpure.com/app/myc2i/org.deeninstituteofnortamerica.myc2i>
5. Enhance and contribute to the "Realty Pro Shots" app (Flutter) - A Flutter-based application. <https://play.google.com/store/apps/details?id=com.realtyproshots> <https://apps.apple.com/pl/app/realty-pro-shots-camera/id1626291043>
6. Create cross-platform mobile applications for these websites such as:
 - o <https://ukilvai.com> (react native)
 - o <https://shohozseba.com> (Flutter)
 - o <https://mindshaper.xyz> (Native android and IOS)
 - o <https://gowinda.in> (pujampandal) (React Native)
 - o GP chat (Native IOS)
 - o VIP Satta (Native android)

SPINNER TECH SOFTWARE LTD

Remote Android and IOS developer

I started working with them in 2021 as a remote application developer. I developed food delivery, medical, ride share, e-commerce apps for them.

Responsibilities

1. Developed the "Drop Me App" ride-sharing application using Flutter. The app facilitates ride-sharing services and offers a user-friendly interface for seamless user experiences. Link: <https://play.google.com/store/search?q=drop%20me&c=apps>
2. Created the "Madcove Fish Lure" blockchain application, which offers unique features related to fishing lure technology. The app leverages blockchain technology for enhanced security and user engagement. Link: <https://play.google.com/store/apps/details?id=com.madcove>
3. Worked on the "SPL (Super Premier League)" native Android gaming app. This gaming app likely provides exciting gaming experiences, possibly revolving around sports or a premier league theme.
4. Cobra app (Android and IOS theming app).
5. Restro cart (Multivendor ecommerce) (Flutter)

• 2020-2021

RADIATION CORPORATION

Senior software developer

I worked for them as a full stack developer. I developed some wordpress websites and some laravel web applications for them. Although it was a totally different experience for me. But i worked for them in a very short period of time

• 2020

FOOD APPS UK

Remote React Native Development head

I started working for them during Covid-19 pandemic. They are UK based tech related company who used to develop two software based on their funding. I used to develop features and maintain app version in android and ios store.

1. Developed the "Foot Apps UK" ride-sharing application using Flutter. The app facilitates food delivery services and offers a user-friendly interface for seamless user experiences. Link: <https://play.google.com/store/search?q=drop%20me&c=apps> <https://apps.apple.com/us/app/foodapps-uk/id1545836700>
2. Created the "Everyday muslim" . An android based salat tracker app. https://play.google.com/store/apps/details?id=com.everydaymuslim.app_

- **2017-2020**

BIZBRAINERS

COO and Senior software developer

Responsibilities include maintaining the existing software and making collaboration between graphics, front-end and back-end developers. Before project initiation I used to design the software architecture and make a plan for whole workflow. After that I set system boilerplate and create version controlling to join the developers. Then I set the tasks in our project management software.

- **2016-2017**

TECHTREE SOFTWARE COMPANY

JUNIOR SOFTWARE DEVELOPER

Responsibilities developing websites and desktop application for clients. The company was built upon the freelancing works. Most of their clients were from upwork and fiverr. I used to take clients requirements and develop the software by myself. Most of the works was on word press theme development. I used to take UI from the graphics designer and create dynamic websites and apps.

- **2015-2016**

UPWORK AND FIVERR

Freelance developer

I have started my career as a freelancer. My first project on software field was android api development on fiverr. I used to integrate payment api, rest api, google api, facebook api, amazon web services and so on. After that I have started developing python build automation's on upwork. Besides those side works I have build so many laravel website and android application.
